

## SHEFFIELD CATHEDRAL

**LOCATION:** Sheffield Cathedral, Church of St Peter and St Paul

**PROJECT:** Internal Reorder And Restoration

**PROJECT LENGTH:** 4 weeks

**INFORMATION:** Sheffield Cathedral occupies a central located position in Sheffield city centre.

Restoration Projects were contracted to reorder the original English oak pews and panelling.

Working alongside the cathedral we programmed the works around the Cathedral's many events bringing the project in on time and budget.

Our services included :

- The programming of works around busy Cathedral events
- Temporary segregation & floor protection during our works
- Reordering and repositioning of the cathedral pews
- Restoration and replacement of damaged / missing pew pieces
- New hand crafted English oak fretwork fitted
- Polishing all new restoration works to match the existing finish
