

UNITED UTILITIES

LOCATION: North West

PROJECT: Framework Agreement

PROJECT LENGTH: 3 Years

INFORMATION: Restoration Projects have provided restoration & refurbishment for United Utilities property solutions on its water treatment & rural farm properties throughout the North West area.

Our Services have included:

- Re-building & Extensions
- Structural repairs
- Roofing
- Joinery
- Lime pointing
- Timber restoration
- Stonework repairs
- Plumbing works
- Electrical works, testing and certification
- Dilapidation Reports

All our projects are carried out under strict Health & Safety guidelines to the delight of our 'blue chip' client.

"Building Projects have worked on many properties for United Utilities. Many of which are isolated and in difficult to reach geographical locations. Great results, an excellent team." Graham Skeer, Regional Building Surveyor, United Utilities
